

About the doctor SRJ Netralaya

Dr Durgesh Srivastava initially obtained MBBS and MS (Ophthalmology) degree and having strong background as a medical practitioner. He did MBBS from King George Medical College Lucknow. Then after he served as resident Doctor in BRD Medical College Gorakhpur, there he also worked as a senior resident doctor in the upgraded department of Ophthalmology. Later he joined as assistant professor in Mahatma Gandhi Institute of Medical Sciences, Wardha, Maharashtra. Earlier he was posted as Medical Officer in District Hospital, there he organized exclusive govt camps and performed extensive eye surgeries on large scale. After having keen involvement in academics he decided to explore the vast area of retinal and vitreous surgeries.

Dr Durgesh wrote several papers on distinguished eye surgeries and treatment of eye and delivered speech in ophthalmological conferences as well. He joined Arvinda Eye Hospital Madurai, Tamil Nadu and worked as General as well as Retina Fellow. His area of expertise is primarily concerned with all sort of surgeries of eye including cataract, glaucoma, squint, laser surgeries etc, moreover he did specialization in posterior and anterior segment surgeries particularly vitreo-retinal surgery. He is a qualified member of International Council of Ophthalmologist, UK. He performed several such surgeries that are quite complicated and referred cases successfully. Cases pertaining to retina detachment and diabetic retinopathy are being treated in daily routine at our netralaya. SRJ Netralaya is serving as specialized eye care unit to alleviate the eye related problems for the population of eastern UP and neighbouring states of India.
